**Total Unfunded Direct Costs per Resident per Year in Texas:
\$79,134 - \$100,734 per resident per year all existing positions.**

**\$88,734 - \$100,734 PRPY existing positions.
THOT average**

*Average based on Medicare cost reports using baseline year of 1984. Note that reported direct costs per resident in Texas range from \$70,000 to \$190,000 per hospital based on variables such as hospital's number of residents, wage index, economies of scale, etc.

**This is an average for teaching hospitals in CMS Hospital Cost report. Actual will vary by hospital based on factors including Medicare utilization. For hospitals with lower than average Medicare utilization, such as THOT members, this number payment will be lower and related unfunded costs higher.

***Indirect costs are not included in the numbers cost and unfunded calculations on this sheet. Medicare and Medicaid pay some indirect GME based on Medicare utilization.
